## SUMMARY

I am a dedicated Full Stack Web Developer and UI/UX Designer with a passion for creating innovative solutions. Proficient in design tools like Figma and web development technologies such as PHP, Laravel, Bootstrap, and Tailwind, I also have foundational knowledge of C# and ASP.NET. With a solid understanding of MVC architecture, I am enthusiastic about developing web and mobile applications. I aim to contribute to impactful projects while continuously enhancing my skills.

---

## PROJECT

- Designed a mobile application, Currensee, for our capstone project using Figma, with a strong emphasis on user experience and interface.
  - Developed and published an e-commerce website using PHP with the Laravel framework, applying Bootstrap and Tailwind for responsive design.
  - Developed and published my portfolio, ensuring it is mobile-responsive, using HTML, CSS, JavaScript, PHP with the Laravel framework, Bootstrap, and Tailwind.
-
